Alex Ellis is an electrical engineer and received his B.S in 2003 from the University of Washington in Seattle. He moved to Kansas City in 2004 to work for A&E consulting firm Black & Veatch, and current holds the title of Project Engineer/Utility Automation Section Lead in Black & Veatch's Telecom group. Alex has worked on a variety of substation integration and automation projects, microwave and radio network projects, has an advanced knowledge of various network protocols/languages, and also has in-depth experience with various NERC and Homeland Security regulations. In addition to his technical role, Alex works with the Black & Veatch Telecom business development group on various proposals and marketing efforts while also managing Telecom's Utility Automation section which consists of 19 engineers and engineering technicians.

In his spare time, Alex dedicates his efforts towards music, his beautiful wife Diana and their two loving dogs. He interns at a Kansas City record label, works with other musicians at his recording studio, and is an avid songwriter pitching songs for media placements. He recently received his masters in Music Business from Berklee School of Music.
