I am currently a Project Manager in the wastewater group at Lamp Rynearson. I have over 13 years of experience as a Water Resources and Wastewater Engineer. I grew up in Shawnee, KS, graduated from the University of Kansas, and now live in Lenexa, KS with my wife and two highly energetic kids. Something interesting about me is during my time at KU I also took music courses and I enjoy playing music at home and at church. I also served 9 years in the Army reserves doing live performances with the 312th Army Band.

My favorite quote is: "Our greatest fear should not be of failure... but of succeeding at things in life that don't really matter." – Francis Chan.

My job would be a lot easier if I could focus more time and energy on being successful at the tasks that are most important.
