

## Andrew Robertson, P.E., PTOE

CFS Engineers, P.A.  
2930 SW Woodside Dr.  
Topeka, KS 66614  
[arobertson@cfse.com](mailto:arobertson@cfse.com)

Mr. Andrew Robertson was born a joyful, sleepy, 10 lbs + 1 oz baby in August 1988 in Springfield, MO. Growing up in Springfield, he was fascinated by laying out wooden train sets, organizing cityscapes for hot wheels, watching cartoons, and all things action, space, science, and dinosaurs. He played lacrosse, performed in musicals, and is an Eagle Scout. After attending Mizzou for undergrad and grad school, he moved to KC to start his career and found a very versatile, flexible position at CFS Engineers. Andrew works on solutions to upgrading streets, traffic, and safety which includes city planning and a critical path towards sustainable development in MO and KS. He recently completed his presidency of the Younger Member Group of ASCE in KC, was awarded the title Outstanding Engineer by his ASCE regional governors, and formed a Culture Crew to add to his company's work environment and comradery. Andrew is engaged to Holly Haywood, Geotech Engineer at Braun Intertec, and the wedding will be on Halloween this year!

**Fun Fact:** On one hand, I have an excellent background in matching board games to difficult people, but I often confuse people with my favorite music genre, New Retro Wave, so I should not be responsible for party music selection. To have your mind blown, check this out:

[https://www.youtube.com/channel/UCD-4g5w1h8xQpLaNS\\_ghU4g](https://www.youtube.com/channel/UCD-4g5w1h8xQpLaNS_ghU4g)

**Favorite Quote:** "Happiness can be found, even in the darkest of times, if one only remembers to turn on the light" - J.K. Rowling, Harry Potter and the Prisoner of Azkaban

**My job would be a lot easier if** I could more easily win proposals given my company's available resources
