I grew up in Enid, OK, moved to Lawrence, KS for high school and graduated from Oklahoma State University with a BS in Civil Engineering. I worked for Wade & Associates after graduation before moving to Bartlett & West for the last 13+ years. At Bartlett & West my career has been focused on all aspects of municipal wastewater. I currently manage projects for the City of Topeka primarily and also lead the production staff focused on wastewater projects. I'm married to Ann and we have two kids, Lucy (3) and Hank (1).

A couple of years ago, my wife and I led her parents and aunt and uncle around Europe for two weeks. We planned all of the logistics including train travel from Rome to London. It was definitely a good bonding experience and test of one's patience.

"A fool with a plan can outsmart a genius with no plan." – T. Boone Pickens

My job would be a lot easier if I had less interruptions.
