**Bio:** I was born and raised in Columbia, MO. Went to Mizzou, and majored in Civil Engineering, with a minors in Mathematics. I graduated in 2012. After college I worked at Rhythm Engineering doing traffic light synchronization for 6 months, then moved to HDR to design highways and roadways. I have been here since. I just recently graduated from KU with a Master's in Engineering Management in May 2019. I am getting married in October.

**Fun fact about me:** I've been to John Goodman's house in New Orleans.

**Favorite Quote:** "Whenever I'm about to do something, I think, 'Would an idiot do that?' And if they would, I do not do that thing." – Dwight Schrute

**My job would be a lot easier if...** there was an easier translation between Microstation and AutoCAD that way offices using different software could work seamlessly using their preferred software, with no issues referencing drawings from one program to another.
