PEC

303 South Topeka

Wichita, KS 67202

316-262-2691

[Clay.Cline@pec1.com](mailto:Clay.Cline@pec1.com)

**Bio:** BS MS graduate of Kansas State University, 2001 in Architectural Engineering (structural emphasis). I spent 2 summers as an intern with Arup Los Angeles, joining full time in January 2001. Left Arup in 2004 and moved back to Kansas where life is calmer and cheaper! Worked in the field for one year until joining Professional Engineering Consultants (PEC) in 2005. Currently, I serve as Principal and Division Manager in the Structural Division.

**Personal Bio:** I started dating my wife in high school. We dated for 7 years before getting married in 2001. As noted in the professional bio, I moved to LA in January 2001. We got married in June 2001. I missed out on all the wedding planning which as one might imagine, I was real bummed about. I have two boys (10 and 12), one dog and a pet corn snake. Both boys are big into soccer. This last year for soccer, we drove to Kansas City eighteen times, Dallas twice, Denver, and St Louis.

**Fun fact about me:** Self-taught surfer, have a tattoo, and enjoy fishing and video games with my kids

**Favorite Quote:** Facts don't have feelings (maybe Ben Shapiro)

**My job would be a lot easier if...** someone else did my job & everyone over-communicated.
