I graduated from Oklahoma State University in 2004 and after graduation moved to Kansas City to work for Burns and McDonnell in their Energy Division. I joined Affinis Corp in 2008 and work as a project engineer in our municipal street and stormwater group. A majority of my clients are municipalities in the Kansas City metro area. In 2011, I joined the ownership group of Affinis as a minority shareholder. At Affinis I serve on the Recruiting and Retention team, Leadership team and am a mentor for new employees. Outside of Affinis I am involved with the Kansas City APWA BMP committee, Northeast Johnson County Chamber of Commerce and KSPE.

My wife Karen and I have been married for six years and live in Overland Park. My hobbies include playing golf, cooking and spending time at the pool or lake. I seem to always have some type of home improvement project in the works. I am also active in my church and serve on the board of trustees.
