

JASON P. DICKMAN, P.E.

PROJECT MANAGER
Poe & Associates, Inc.

PROFESSIONAL BACKGROUND

In 1999, I graduated with a B.S. in Civil Engineering from Kansas State University. My first and current job is with Poe & Associates, Inc., in Wichita, Kansas. By 2004, I received my Professional Engineer License in the state of Kansas. Most recently, as a project manager, my responsibilities cover a wide range of civil engineering design specialties. These specialties include experience completing street and drainage design and writing drainage reports as well as work on the design of KDOT road and bridge projects; municipal sanitary and storm sewer projects, waterline projects, and residential and commercial developments. I have worked closely with various residential and commercial developers, local municipalities, and coordinated permitting requirements through government agencies such as KDOT, KDHE, DWR, USACE, and FEMA. I am a current member of the National Society of Professional Engineers and the Institute of Transportation Engineers as well as being a Certified KDOT Bridge Inspection Team Leader.

PERSONAL BACKGROUND

In 1992, I graduated from Colby High School in Colby, Kansas. I enlisted in the United States Army Reserves as a Medical Logistic Specialist and continued that service until 2011 as a First Sergeant in Hays, Kansas. During that time, I attended Colby Community College and went on to graduate from Kansas State University in 1999. I served overseas for ten months in 2002-2003 in support of Operation Enduring Freedom. Then, in 2011 I applied for and received a direct commission as a Second Lieutenant in the Army Engineer Branch. I now serve as a First Lieutenant/Platoon Leader for a training battalion in Leavenworth Kansas. In the meantime, I moved to Wichita from Manhattan in 1999 to work for Poe and Associates. I was married in 2001 and had three children—Cheyanne, Cory, and Curtis. I was divorced after nine years and remarried in 2013 to Heather and added her three children—Ashlyn, Olivia, and Aleece to the family. With that, we have plenty to do at home and lots of running around town for the kids' activities throughout the year.
