* Bridge Consultant only needed for serial number 39

Changes from the initial list sent to Bridge squads on 3/14/2022.

1. Structures that were colisted on other programs (Priority Bridge Redeck, IKE, etc) were removed from FY27 Priority Bridge Replacement and assigned to those programs.
2. Bridge 024-005 was added to this list.
3. Bridge 087-279, which was colisted on FY25 Priority Bridge Redeck, has been moved to consideration for FY28 Priority Bridge Replacement.
4. Bridge 031-004 (Taylor Rd) has been assigned on the IKE22 list as a bridge replacement (FY unknown). KMP is squad leader for Bridge.
5. Bridge 031-016 has been left on the FY26 Priority Bridge Replacement list (KA-6483-01) with KMP still as squad leader. There had been consideration to combine with 031-004 in a later project. That's been dropped.
6. Note, there have been other assignments to the FY25 Priority Bridge Redeck and Priority Bridge Culvert Replacement Programs since 3/14/2022--refer to those current lists.

Proposed project ties.

1. Culv 007-508 and 007-509 on K-246.
2. Br 014-006, 007, 008 and 506 on US-24.
3. Culv 021-523 and 021-546 on I-70.
4. Br 071-030 and 071-031 on US-281.
5. Br 105-034 and 1105-035 on I-635.
6. Br 105-027 (K-32), 289 and 290 (I-70 EB ramps)--note these bridges connect Interstate traffic to the closed KCK Central Ave bridge over the Kansas River. An in-depth Discovery Phase is needed here. No Bridge Construction Cost est until scope can be determined.
