

George A. Tannoury, P.E.

Terracon
3113 SW Van Buren St.
Topeka, KS 66611
785-267-3310

george.tannoury@terracon.com

Bio: Serves as the office manager and geotechnical department manager with Terracon Consultants (Wichita Office) since 2019 and 2015, respectively. Mr. Tannoury is the engineer of record on a wide spectrum of projects including wind turbine projects, refinery structures, power plants, grain storage elevators/bins, bridges and highways. Mr. Tannoury has two Master of Science degrees in civil engineering (The University of Balamand – 2001 and The University of Nevada Reno – 2007) and is currently pursuing his Ph.D. in geotechnical engineering “Evaluation of Microcracking for Cement Modified Soil” at the University of Kansas.

George is married to Diala Tannoury and they have 3 kids: Anthony (10 yrs.) Carelle (6 years) and Kyle (1.5 yrs). When I am not at work I enjoy spending time on outdoor activities with my wife and the kids.

Fun fact about me:

Favorite Quote: “The capacity to learn is a gift; the ability to learn is a skill; the willingness to learn is choice.” – Brian Herbert

My job would be a lot easier if... I can extend the day hours 50 percent
