I grew up in Wichita, KS and graduated from Kansas State University in 2002 with a B.S. in Civil Engineering. I began working for MKEC Engineering, Inc. in Overland Park, KS after graduation, following several summer internships in MKEC's Wichita office. I am a design engineer and project manager for land development and public infrastructure projects.

My wife Amy and I reside in Olathe, KS and have two sons, Brody (3) and Drew (1 1/2). I enjoy spending time with my family, following KSU football/basketball, and Royals baseball. We are active in our local church and enjoy spending time in Colorado.
