James Petersen is a Project Engineer with Alfred Benesch & Company. He holds a B.S. and M.S. in Civil Engineering from Kansas State University. He is a professional engineer and has been in the engineering consulting field for 13 years. He is a member of the American Society of Civil Engineers.

James and his wife Tricia have been married for 13 years and reside in Kansas City, Missouri. They have two children, Hannah, who is 10, and Owen, who is 7. James enjoys cycling and swimming in his spare time.

His Favorite quote is, "There's no sense in being precise when you don't even know what you're talking about" - John von Neumann

His job would be easier if he could work uninterrupted.
