**Bio:** Born and raised around DeSoto Kansas. I have a beautiful wife of 16 years and 3 wonderful children.

I began my construction inspection career at KDOT in January of 2001. I moved to the consultant side in 2003 and I have been with BHC Rhodes for 9 years.

As the Construction Manager I lead a team of Inspectors providing a variety of construction and engineering services.

**Fun fact about me:** I hesitate to put this out there as it may cause controversy, but I've never voted. Not for anything.

I feel that I don't spend enough time investigating all sides on most voting items. I wouldn't ever want to sway a vote the wrong way because I'm an uninformed voter. The same as I think non-engineering people shouldn't have a chance to make major engineering decisions. Just my crazy way of looking at things.

**Favorite Quote:** My favorite quote- "Never do today what you can put off until tomorrow" - Aaron Burr

**My job would be a lot easier if...** I didn't procrastinate so much. For example I'm doing this bio Sunday night as it is due tomorrow.
