I was born and raised in Gardner, KS where I still reside today. After high school, I spent two years at Emporia State University playing baseball and working on getting my engineering pre-requisites out of the way. After deciding baseball wasn't the most important thing, I finished college at Kansas State University with a B.S. in Civil Engineering (2008). I started my career at HNTB doing bridge design and worked on completing my M.C.E. in Structural Engineering from Kansas University in 2012. These days, I am a Project Manager and Section Manager at HNTB working mainly on projects in Kansas, Iowa and Missouri. I have been married to my wife Jobeth for 12 years and have three kids, Maddy (7), Amelia (3) and Brody (1) that consume almost all of our time and we wouldn't have it any other way.

Fun fact: My family and I love to travel and our favorite trips typically either enjoy going to the lake or to Disney. I'm not afraid to admit that I'm a huge Disney fan and the feeling of being a kid.

Favorite quote: I'll admit that I had to google one "A little consideration, a little thought for others, makes all the difference." -- Eeyore (Winnie the Pooh).

My job would be a lot easier if we weren't worried about budgets, schedules and involved more golf.
