My name is Kyle Guenther and I am a Transportation Engineer for Wilson and Company. I graduated from the University of Kansas in 2009 with a Bachelor's Degree in Civil Engineering. After graduating, I went to work for the Kansas Department of Transportation and was there from June 2009 to March 2013. I worked under some of the most reputable engineers there, including Jim Brewer, Corky Armstrong, Rod Lacy, and Scott King. I left KDOT to go work for Burns and McDonnell out of Kansas City where I worked on a variety of projects, differing in type, size, locale, and delivery methods. I was at Burns and McDonnell for almost 7 years from April 2013 to February 2020. I then was given the opportunity to come onboard at Wilson and Company and made the switch back in February. I was born in Dallas, Texas and my family moved to Kansas City, Mo when I was about 6 months old. I currently live in Blue Springs, MO with my beautiful wife (Alyssa) of 6 years. We have 2 little girls. Bayli who is 11 years old and is a phenomenal gymnast. Lynlee, is 3 years old. If you ask Lynlee, "What is your middle name?" She will say, "MONSTER RAWRR!!"

An interesting fact about me...I am a spare change hoarder. If at the end of the day, I have change in my pocket, I throw that change into a jar. I have been doing this since I was 18 years old and have no clue how much change I have. But for reference; picture a 5gallon bucket from Lowe's and it filled with loose change.

My job would be a lot easier if...Email was voice controlled.
