## Employment Experience

SMH Consultants in Dodge City, 2013 to present

City of Dodge City, Assistant Parks Superintendent, 2009-2013

Consilium Design in Centennial, CO, Landscape Architect, 2006-2009

CLC Associates in Greenwood Village, CO, Landscape Architect, 2003-2006

Davis Partnership in Denver, CO, Intern, 2002

I went to college at Kansas State and graduated with a bachelor's in Landscape Architecture in 2003. I then went to work in Denver as a landscape architect for a couple firms. CLC Associates was a multi-disciplinary firm that focused mainly on commercial development. Next I worked at Consilium Design where we all were landscape architects. They worked on subdivision and commercial development mostly. In 2009 my wife and I had our first child and decided we wanted to live closer to home, bought a farm and found jobs near the Kinsley/Offerle area. I landed at the City of Dodge City working as the Assistant Parks Superintendent in December of 2009. In 2013, SMH hired me as the office manager in their Dodge City office. Most of my job is project and client management. When needed for a project I handle the landscape design for SMH. Our work ranges from public improvements to residential and commercial development to construction testing. Since joining SMH I have gone ahead and got licensed as a landscape architect here in Kansas.

I live on a farm near Offerle about 25 miles east of Dodge City. Our farm is situated half way between my father's farm and my wife's father's farm. We raise wheat and milo on our ground and have a couple horses. I help my father on his farm on a regular basis in the evenings and weekends. My wife's name is Lauren and we went to high school and college together. She works for one of the KanCare companies and gets to work out of the house. We have two boys, Woodrow is 5 and Henry is 2. They enjoy living on a farm and being close to their grandparents. For fun we attend all the K-State home football games and hit a basketball and baseball game each season. When I have the time, I like to play golf.
