Bio

I was born and raised in Wichita, KS where I was the third of six kids. I graduated from K-State with my degree in Civil Engineering in December of 2009. I moved to Norfolk, NE in October 2010 to begin my career as the Assistant City Engineer and later was appointed to the City Engineer position in 2015. In October 2016 we moved back to Wichita to be closer to family as my wife Sheena is also from Wichita. We have two beautiful daughters, McKenzie 4 and Evelyn 2. Currently I am a Senior Project Engineer for Garver. I enjoy spending time with family, watching K-State football and basketball games and in my spare time I like woodworking and golfing (even though I'm not a good golfer).

Fun fact about you that will be surprising/interesting to your classmates!

My wife and I went on a date in high school when we were 16 and it didn't go so well and didn't talk much after that until we went on a second first date almost 5 years later, and the rest is history.

Favorite quote

I can honestly say I don't have a favorite quote. I will say that the Bible is filled with great quotes and lines to live by and if there was just one line to live by it would be a lot smaller book but as we all know it's a pretty thick book, which I think means there is more than just one line to live by.

My job would be a lot easier if

everyone paid attention to the details and budgets weren't a factor.
