Personal

I grew up in a small town in northwest Iowa about 20 miles south of Sioux City. I have been married for 14 years and have two boys, ages 10 and 9. We recently moved to Lenexa from Shawnee. I enjoy cub scouts with my boys and other outdoor activities. I also enjoy brewing beer and barbequing.

Professional

After graduating from Iowa State in 1998, I started my career with PDM in Des Moines as a designer of above ground steel storage tanks. After a brief stint with PDM I moved on to the bridge design office of the Iowa DOT for several years. In 2002 I moved to Omaha and started with TranSystems, where I've been since. In 2010, I moved from our Omaha office to the Kansas City office to assume the role of Highway Bridge Team Leader. Since that time I have been involved in design, inspection and rehabilitation of numerous highway structures around the country.
