I graduated from Kansas State University in 2002 with a B.S. in Civil Engineering. I joined Shafer, Kline & Warren (SKW) in 2005 as a project engineer for the structural engineering group. In 2009, I received my Professional Engineering license in Kansas. I am currently a project manager for SKW's Infrastructure Services Department in our Lenexa, Kansas, office. As a project manager, I am responsible for the design of buildings, bridges, miscellaneous civil structures, retaining walls, construction administration, preparing contract documents, and managing staff. I participate in several other professional organizations including KSPE, ASCE, and the Lenexa Chamber of Commerce.

My wife Bev and I live in Lenexa with our three children, Shelby (6), Cooper (5), and Brynley (5 months). In my "free" time, I enjoy the outdoors, hunting, fishing, camping, and home improvements. I've recently begun coaching my kids in sports, which is quickly becoming a new favorite. An interesting fact about me is I am probably the only engineer in the class married to an architect!
