I was born in Topeka and grew up in the small town of Onaga, KS. After high school, I went to Kansas State University where I graduated with a BS in Civil Engineering in 1998. I immediately went to work for Bartlett & West Engineers in their Transportation Group in Topeka. While working full-time, I got my MS in Civil Engineering in 2002 from K-State. In 2006, I transferred to our Manhattan location where I am the Local Division Manager and continue to focus on Public Works projects for various clients. I am a licensed Professional Engineer in Kansas and hold ITE's Professional Traffic Operations Engineer (PTOE) certification. I have been married to my wife Emilie since 2003, and we have three wonderful children: Carter (6), Claire (4), & Madelynn (2). We live in a 100+ year old farm house on 3 acres. I enjoy hunting, fishing, attending KSU football and basketball games, and working on a never ending list of home improvement projects. I also enjoy taking the kids swimming and coaching my son's baseball team in the summer.
