Professional:

I graduated from Kansas State University in 2003 with a BS in Civil Engineering. I currently work at Baughman Company PA in Wichita, Kansas, and I am the Chief Water Resources Engineer. I mainly work on Drainage Plans and analysis for residential and commercial developments, FEMA permitting/studies, and general hydrology and hydraulics for various projects. I am a member of ASCE, KSPE, ASFPM, as well as serve on the Wichita/Sedgwick County Storm Water Technical Advisory Committee. I am a Professional Engineer in the State of Kansas as well as a Certified Floodplain Manager.

Personal:

I was born and raised in Kinsley, Kansas. I am married and have 3 children – 1 boy and 2 girls. I enjoy working on my house doing various renovations on the weekends and when I have extra time, I like to play golf. I am a fanatical Kansas State fan and attend every home football game and numerous basketball games each season. I also like to keep up with current events, news, and politics, and am a Libertarian at heart.
